

T. C. MILNE J.M. LIB. STANDARD BEARER MACLEOD RIDING NEXT FED. ELECTION

CLASSIFICATION NO. 17, RAILWAY FREIGHTS, WILL BE EFFECTIVE OCTOBER 1st

Ottawa, July 18.—Under the order of the Board of Railway Commissioners, made public today, a new freight rate classification will become effective throughout Canada on or about October 1 next. The Board this morning gave its judgment regarding Canadian freight classification No. 17 which will supersede classification No. 16 and its supplements. The main judgment, which was written by the assistant chief commissioner, S. J. McLean, is voluminous, 111 foolscap sheets. It is concurred in by Commissioner A. C. Boyce. A shorter judgment, which dissents in certain respects from the main judgment was written by Commissioner Frank Oliver.

The new classification, taken as a whole, will probably have the effect of reducing the cost of transporting freight, according to the main judgment. "As to the various general and vague statements that changes in classification ratings increased the cost of goods and raised the cost of living, it may be pointed out that the revision of the classification involves both increases and reductions," says the judgment. "From as careful an analysis as possible from the information in the possession of the Board, it is believed that the revision, taken as a whole, in no way increases the aggregate cost of transporting goods, but that as a matter of fact, it will probably have the reverse effect. While the effect of traffic in the various articles affected is very confusing, as a matter of information it may be stated that, as a whole, the number of increases in less than carload ratings is 162; the number of increases in carload ratings is 177; the number of decreases in less than carload ratings is 344, and the number of decreases in carload ratings is 194."

Very Comprehensive

The new classification, as approved, will be a much larger and more comprehensive volume than the present classification, making provision for many new articles and new shipping conditions not now provided for.

NOXIOUS WEEDS ACT.

The Municipal District of Bright, No. 69, wishes to emphasize the fact that the "Noxious Weeds Act" is to be enforced throughout the district this season, and most particularly that portion relating to owners of land cutting weeds to the centre of contiguous road allowances.

HARRY W. BRIGHT, 19-26, "Treasurer."

RAISE SILVER FOXES

If you could buy a pair of the best quality Silver Foxes registered Silver Black Foxes on easy terms of payment until November 1st, 1927, for \$360.00, would you be interested?

Fox Farming pays bigger profits than any other industry we know of—the returns are quick and the profits are large. Silver Black Foxes are the greatest mortgage lifters that we know about. They produce yearly returns and are not affected by drought, hail or frost.

Write the Parkhill Silver Black Fox Co., Ltd., 501 Leeson and Lincoln Bldg., Calgary, for their pamphlets, "POSSIBILITIES IN FOX FARMING" and "HOW WE CAN SELL GOVERNING FOXES ON EASY TERMS OF PAYMENT FOR \$360 PER PAIR," or apply to

STILL PRINTING STORIES BRITISH CABINET CRISIS OVER THE NAVAL PROGRAM

London, July 21.—Anti-government newspapers continue to print stories about a crisis within the cabinet over the naval construction program. There seems to be no question that there is a strong difference of opinion among the ministers over the building of new cruisers, one section adhering emphatically to the demand for the immediate laying of three or four, which the sea lords, headed by Admiral Beatty, are alleged to have made, while others among the ministers favor postponement of the cruiser building in the interests of economy. A variety of reports is printed in the morning papers, but authoritative quarters are responsible for the statement that W. C. Bridgeman will not resign as first sea lord of the admiralty, as has been rumored. Nothing definite will be known until Wednesday when the cabinet is to meet. A statement by Premier Baldwin in the house is looked for then.

Unexpected Split

London, July 21.—An unexpected hitch seems to have developed regarding the British naval construction program. Premier Stanley Baldwin conferred an hour with the king today. Later the premier told the house of commons he was unable to say when he could announce the naval program.

CO-OPERATION IS ONE GREAT NEED OF THE FARMER

Philadelphia, July 21.—Co-operation as a world-wide movement growing in strength and permanent nature was the view presented to the morning session of the American Institute of Co-operation by its secretary.

FITZMAURICE HANGS UP NEW THRILL RECORD

The last word in movie thrills is promised by George Fitzmaurice in his new Goldwyn-First National production, "A Thief in Paradise," which comes to the Empress Theatre next Wednesday and Thursday.

Undersea battle between a man and a shark.

Another battle between two men, five fathoms undersea, on the ocean's bed.

Colman stages the two undersea fights and is said to have spent five hours, at two-minute intervals, in the briny depths to get these scenes.

Powerful mirrors reflected the sunlight down into the water to afford sufficient illumination for the cameras.

Summer School at Sylvan Lake

All plans are complete for the summer school at Sylvan Lake, to be held Aug. 3rd to 13th, under the auspices of the Religious Education Council of Alberta.

Desmond's New Role Promises Big Thriller

William Desmond went through what he says is the most thrilling experience of his long and exciting career while working in "Ridin' Pretty," Universal picture to be shown in the Empress Theatre commencing next Friday and Saturday.

WILL CONFER AT MACLEOD ON FREIGHT RATES

Calgary, July 20.—Freight rates as they affect Alberta, and Calgary in particular, are the subject of an informal conference that is now proceeding between A. Chard, Alberta government supervisor of freight and traffic, and John Hanna, secretary of the Board of Trade.

At the Liberal nominating convention T. C. Milne, of Claresholm, was nominated as candidate to represent the Liberal party of the Macleod riding in the next Dominion election.

The convention was held in the Town Hall, Macleod, Wednesday afternoon, and nearly one hundred delegates from all over the riding were in attendance, as well as a host of Liberal supporters. H. Bossanberry, of Pincher Creek, acted as chairman, and before proceeding with the business of the meeting invited the following prominent Liberals of the Province on to the platform: The Hon. Charles Mitchell, W. A. Buchanan, E. C. Fisher, T. C. Milne, J. E. Gillis and others.

The new Liberal standard bearer for Macleod riding is a prosperous farmer of Claresholm, and was elected as an independent farmer candidate for the Claresholm district at the last provincial election. He created quite a furor in former political circles by crossing from the U.F.A. benches over to the Liberal side of the house during the past provincial session in Edmonton. He is well liked in the Claresholm district and has had many years experience in the political field. The delegates from all over the riding are well pleased with the choice of candidate for the next election.

PLUCKY RESCUE BY MACLEOD RESIDENT

An episode that might well have had a tragic sequel took place at Henderson Park, Lethbridge, on Friday last, when two female bathers, Miss Miller and Miss Wardman, got out in the water beyond their depth. The prompt work of George Palmer, of Macleod, who plunged into the water to their rescue (fully clothed) and supported the girls until assisted by Constable Llewellyn of Lethbridge, and between them they landed the young ladies safely on shore. One of the girls was unconscious, but after first aid had been applied by the two rescuers, she recovered. This is the fourth time that George Palmer has been instrumental in saving drowning persons.

CHEAPER GAS IN SIGHT

Calgary, July 21.—Cheaper gas is promised the consumers of Calgary by the Canadian Western Gas Company, which some time ago made arrangements to buy Turner Valley gas from the Royalite company at the rate of 10 cents per thousand feet. This price is three cents lower than the usual rate, and the gas company promises to pass on the reduction to the consumer.

Perhaps Macleod will burn cheaper gas next winter.

The rate will likely be three cents cheaper, making a gross price of 50 cents, which, with the five cent discount rate, would make a net rate of 45 cents. The final decision as to the amount of the cut has not yet been made by the company.

The reduction is the result of the finding of large supplies of natural gas in the Foremost and Turner Valley fields. The Royalite Company of Turner Valley has offered to sell the company gas for 10 cents per thousand feet—the three cent saving is being passed along to the Calgary consumer, and it is assumed that consumers all over the distribution system will benefit—this meaning that Macleod, Nanton, and other towns along the Macleod branch which are served by the big Bow Island-Lethbridge-Calgary pipe line will also benefit.

THE EMPRESS THEATRE — CURRENT ATTRACTIONS

FITZMAURICE HANGS UP NEW THRILL RECORD

Man-eating sharks are some times easier to direct before the camera than human actors!

This is the unusual claim of George Fitzmaurice, veteran screen director, whose Goldwyn production, "A Thief in Paradise," comes to the Empress Theatre next Wednesday and Thursday.

One of the most deadly variety of sharks plays an important part in the opening episode of the story of "A Thief in Paradise," and Fitzmaurice personally "directed" the denizen of the sea in the incident.

"Because man-eating sharks apparently have but one mission—their vicinity—the direction of this particular shark was a comparatively easy matter," Fitzmaurice explained in discussing his unique directorial feat. "The difficulty was to direct the human actor who was to appear with the shark. Thanks to the courage of the man who agreed to appear as the victim of the shark, I had comparatively little trouble in getting the shark to do his part. It was only necessary to get the shark and the man in the same part of the Pacific ocean and photograph their action."

The shark incident opens the gripping story of "A Thief in Paradise," in which Doris Kenyon, Ronald Colman and Aileen Pringle are the principal players.

BEAUTIES PLAY POLO IN BATHING SUITS

One of the latest novelties which motion pictures are everlastingly devising for our amazement is a polo match between a boy of bathing beauties. It forms one of the highlights of "A Thief in Paradise," at the Empress Theatre next Wednesday and Thursday.

Four pretty blondes and as many equally pretty brunettes form the opposing teams and they ride and battle each other as furiously as men. However, the girls soon discovered that their one-piece bathing suits did not offer the same protection from the stirrup straps that boots do. As a result, Producer Fitzmaurice bought up all the brown velvet available and had the straps wrapped with it. Then the game continued.

Doris Kenyon, Ronald Colman and Aileen Pringle are co-featured in this Goldwyn-Fitzmaurice picture, being released through First National.

"ACROSTICATION" — A WOMAN'S POINT OF VIEW OF "A THIEF IN PARADISE"

All life is but an ardent quest
To gain an Eden's love and rest.
Hand, heart and soul strive for the prize
In every land beneath the skies.
Enraptured women, men, elate,
Find heaven in this golden state.

In all the treasures they possess—
Not gold alone, but happiness!

Play fair is always not the mode;
And knave and robber have no code.
Resorting to deceptions base,
Ambitious but to gain the place,
Dost know—'tis well to not forget—
In nowise covetous as yet.
Some day, you may, by some device,
Enact "A Thief in Paradise?"

Empress—Next Wednesday and Thursday.

Kill-joy: One who scolds naughty youngsters for doing the things he no longer has the capacity to enjoy.

There's small choice. When a road is freed of all other hazards, there's a speed cop.

NAVY LEAGUE OF ALBERTA

The Rev. Fred Cooke as Representative of the Alberta Division of the Navy League of Canada is in Macleod and is soliciting subscriptions to the Sailor Magazine. It is published monthly at \$2.00 a year. All subscriptions to the Sailor Magazine and donations to the Navy League will be thankfully received by the Rev. Cooke.

The Navy League of Canada is assisting the widows and orphans of our men of the Merchant Marine who were killed in the Great War.

The Dominion Council of the Navy League of Canada require the Alberta Division to raise \$8,000.00 as its quota, and the whole amount to be raised in the Dominion is \$250,000.00. Alberta has almost realized one half of the required amount, and has every reason to hope to raise the whole amount for Alberta.

COMING EVENTS FORESHADOWED

ODDFELLOWS' PICNIC

A joint picnic will be held at the Polo Grounds, Macleod, on Wednesday, July 29th, under the auspices of Mountain View Lodge No. 4, Unity Lodge No. 23, (Granum) and Mountain View Rebekah Lodge No. 23. All Oddfellows and Rebekahs and families are cordially invited. Care at Oddfellows' Hall 7:20 p.m. Bring your baskets and have a real social time.

MACLEOD ANNUAL RACES, STAMPEDE AND CARNIVAL

Combining the gigantic Abner Kline Midway Attractions. The largest midway ever seen in southern Alberta, nine big rides, and fifteen side-shows with numerous concessions. Big stampee and race program under the management of "Jimmy" McNab, well known broncho buster. At the Macleod Exhibition grounds Tuesday and Wednesday, August 4th and 5th. Two big days of enjoyment. 21-1t

HAIL; HAIL; HAIL: The gang's all there. Where? On R. A. Clement's lawn. When? Thursday evening July 30th at 7:30. Why? Garden Fete. Proceeds for completion of band stand. What's gonna be there? Everything. Concert, Ice Cream and Cake, Hot Dogs, Fish Pond, Fortune Telling. Admission 25 cents.

MACLEOD BOARD TRADE HEARS MR. CHARD ON FREIGHT RATE ISSUE

The regular meeting of the Board of Trade was held Tuesday evening, July 28th, with a good attendance of members, to hear A. Chard of the provincial department of railways, who addressed the meeting on railway rates. Mr. Chard is meeting several councils and boards of trade, with a view to ascertaining their views on railway rates in Alberta. After the war the railways of both the U.S.A. and Canada asked to increase their rates on account of the high cost of labor and materials. This was granted by the governments, and in the East was a 25 per cent. increase. Later it was extended to the West, and these rates were in use until 1922, when the governments cancelled all war measures. Then the rate to Fort William from the Crow's Nest line was 36, but was reduced to 26c, while the rate to Vancouver was 31c. The mileage to Fort William is 1,231, while to Vancouver it is 642 miles. Today the rates from Toronto to Vancouver, water route on canned goods, is less than from the coast to Calgary, and goods can now be delivered from Montreal and Toronto via the water route to Vancouver, and as far east as Regina, at a rate much less than by rail from either of these points. One of the main shipments during the summer is fruit, and this has a rate from the East less than given the shippers and growers in B.C. Many of the heavy goods can be shipped via the Panama Canal to Vancouver, then sent east by rail for much less than direct by rail. Livestock for short hauls is now at a fair rate, but when the long hauls are made it is higher.

A vote of thanks was tendered Mr. Chard for his interesting address. He left on the midnight train for Medicine Hat, where he will speak on Thursday.

PREMIER OPPOSES GAS EXPORTATION

Premier Greenfield has written to the department of the interior about the proposed exportation of natural gas from Southern Alberta to points across the Montana border and has expressed his disapproval. Before anything is done in the matter there should be a careful consideration of all the interests involved, he suggests, and he takes the ground that all of Alberta's resources should be reserved for the use of Alberta people, who have a first claim upon them. The premier also says that the Dominion authorities until there has been full opportunity for protection to home interests and requirements in the way of both supply and price.

REGULAR MEETING TOWN COUNCIL

At the regular meeting of Macleod Town Council held on Monday evening, July 26th, there were present: Mayor McDonald; Councilors Swinerton, Morris, Leather, Day, Stevens and McLeod.

The usual grants were ordered to be paid to the Public and Separate Schools, also the accounts for the month were passed and ordered to be paid.

Councillor F. Morris was appointed deputy-Mayor for the ensuing three months.

Secretary Brown was granted three weeks leave of absence, Assistant Secretary Doshin to take his place during his absence.

The bylaw setting rates for the Town of Macleod was passed.

SCOPES GUILTY; FINED

Dayton, July 21.—John T. Scopes, Dayton school teacher, was found guilty by a Rhea county jury today of violating the state law against the teaching of evolution and was fined \$100.

Scopes was summoned before the bar. Judge Raulston told him of his conviction by the jury and levied the fine.

"Have you anything to say, Mr. Scopes?" asked the judge.

"Your honor, I have been convicted of violating an unjust statute," replied Scopes. "Any action other than I have pursued would be in violation of my idea of academic freedom."

Scopes added to the court in his statement that he would continue to oppose the law in every way in his power as he considered it an unjust law and in violation of the constitution.

Arthur G. Hayes, for the defence, made a formal motion for stay of judgment.

Judge Raulston pointed out that the law of Tennessee permits sixty days for perfecting an appeal, and bond, pending the outcome of appeal, was fixed at \$500. It was announced bond would be arranged at once and an appeal made to the supreme court meeting at Knoxville. The court gave the defence thirty days in which to perfect the appeal and said that an extension would be granted if necessary.

W. H. ATKINS—SUNSET INN

Word has been received at Macleod that W. H. Atkins, formerly of this town, is now located at Qualicum Beach Vancouver Island, B.C., where he is proprietor of The Sunset Inn.

The Inn has a fine outlook seaward, and is well situated as a hunting and fishing centre. In addition to the usual attractions such as boating and bathing, there is a Golf Links opposite the Inn for which guests are furnished with cards upon request.

Qualicum Beach is noted for its surroundings of great natural beauty, and its wide expanse of sand, ensuring safe bathing for children at all times. A informality is a keynote at the Inn, coupled with a quality in food and simplicity in room and service often found in the English Inn.

Essentials are quite modern—hot and cold water and electric light in all guest rooms.

With the Baseball Referees' Union, which works one hour a day with rainy days off, located in America, how can Soviet Russia any longer claim monopoly on the million of labor?

Something over 99 per cent. of unremembered graves are inhabited by people who were painstaking conformists.

MACLEOD UNITED CHURCH

Sunday July 26th, 1925

Services morning and evening as usual. The Sunday-school withdrawn for the summer months.

11 a.m.—Subject, "The Blood Price".

7:30 p.m.—Subject—"God Conscious".

THURSDAY, JULY 23rd, 1925

THE UNDERWORLD OF IGNORANCE

That Scopes trial at Dayton is nothing but a phase in the world-wide revolt against civilization. Headed by that fascinating professional politician, statesman and orator, William Jennings Bryan, the world's ignorance is directing its assault against one man who in this instance is made to typify the new culture of science.

This outbreak against evolution is centered in Tennessee simply because bigotry and ignorance are rampant in that state. But the quarrel of every underman in the world who writhes under a civilization his limited mentality will not allow him to support. It is the ignorant man's revolt against something he does not understand and which chafes his brain cells.

That Bryan is to be found championing the cause of the ignorant underman is not surprising. There is no applause in the world like that of the mob. And Bryan lives on applause.

Bryan will advocate the cause of anything and anybody that has two good strong hands and the will to beat them together.

One day he is mouthing prohibition. The next he is just as eloquent on the Democratic party. And for the past few months he has, every week day, been giving real estate talks in Miami, Florida.

The same real estate company which hires Bill Bryan to give daily talks also hires Gilda Gray, the dancer, as an extra attraction. Old Bill works one side of the street while shapely Gilda shimmies down the other. And no one enjoys the joke more than Mr. Bryan. He is a professional mummer, whether his role happens to be orator, entertainer.

er, disturber, religionist or politician—It is all the same with Bill. This, then, is the man who is posing as the divinely appointed champion of religion. He is not the champion of religion at all. Religion has nothing to do with the fight. He is only the hired spokesman for the underworld of humanity that is in rebellion against the aristocracy of intellect.

THE DIGNITY OF LABOR

News Columns tell the story of six Vancouver men who have just passed examinations entitling them to practice the medical profession in the State of Washington.

That means that the brains and energies of six intelligent young Canadians have been lost to the Dominion of Canada and gained by United States.

And the reason they have been lost to Canada is because Canadian educational institutions are not training men according to the abilities of the country to absorb them. They insist on making doctors when the country needs good farmers, and on making lawyers when the country wants pioneers.

Today everyone wants to go in for a professional or business career. No one wants to go in for a trade. Everyone wants to wear kid gloves and keep, as far as possible, from actually soiling his hands.

And the universities and schools are encouraging that viewpoint. The dignity of the professions is preached in and out of season. The dignity of labor is ignored. The result is that the manhood and womanhood of this country are being unfitted for the common duties of life.

A country of 9,000,000 people can absorb only a limited number of professional men. So after Canada and Canadian universities carefully turn out a surplus number of professional men, United States promptly swallows them up, because in a country of 110,000,000 people they can find a wider market for their abilities and training.

What Canadian universities need to emphasize is the dignity of labor. What they need to produce is a quantity of craftsmen, farmers and working men who are trained to get out and do the work that is waiting to be done.

DISCIPLINED CURIOSITY

Those who have anything to do with bringing up children need not be reminded of the prominent place curiosity occupies in the bundle of complexities that make up human nature.

The curious child is, however, too often considered merely as a disturber of parental peace and gets but scanty satisfaction for the multitude of odd questions fired at its elders.

Early repression cannot eradicate such a powerful trait as curiosity, but it is possible to defer its full utilization until as an educational factor it is too late to harness this most important of all the agencies which has made human progress possible.

Idle curiosity, content to gaze and wonder, never discovered anything of value since the world began. It is only when curiosity develops into studious inquisitiveness that the secrets of nature are disclosed.

When Roentgen discovered the "X-Ray" he was, as Sir Oliver Lodge puts it, "messing about with vacuum tubes"; he had no idea what the result of his curiosity would lead to.

Discoverers of truth are usually credited with extraordinary brain capacity, but the advancement of knowledge can more truly be said to be due to patient inquiry stimulated by disciplined curiosity. Great thinkers do not use more than one-half of their brain cells, and the rest of mankind manage to muddle along with one-tenth to one-quarter of the mental equipment in active use.

The scientific development of the latent curiosity possessed by every normal human being is a powerful agency in mental growth, which has not yet found its legitimate place in our educational system.

WATCH THOSE EYES

News stories tell of the American aviator who circled about a house, took photographs and dropped the finished prints on the lawn nine minutes after the first exposure.

Wonderful is science. But inside your head is a photographic machine that can take photographs and deliver the impression to your brain in a thousandth part of a second.

Science is just beginning to catch up with nature. The aviator who operates this wonderful camera lodges it carefully at night in a special case where the temperature is regulated to within a tenth of a degree. When he takes

BUY AT HOME SPEND YOUR MONEY IN MACLEOD

Purchases representing thousands of dollars are lost to us, to our trade, to our clerks and employees, to our laborers and artisans, to all the people of Macleod who exist on the products of their work. This money, if spent at home, would help to recreate Macleod financially, give a wider field of activities in business, would be helpful to every resident of this town.

If we purchased regularly from local merchants, this money would circulate in Macleod in a welcome manner. Our merchants merit our patronage; it is to our interest, and the duty of all of us to encourage the local merchant. He is one of us, he lives among us, he has the right to be encouraged by us, he is anxious to have our custom, and to give us satisfaction. We should under all circumstances give him preference, price for price, quality for quality. And nearly always the price that our local merchant asks is, if we compare the quality, just as cheap as that of the outside merchant.

Never purchase merchandise by catalogues from foreign houses before assuring yourself that you cannot procure the same articles, of the same quality (and frequently of better quality) at the same price from your local merchant.

THE CORNER GROCERY

HUDSON'S BAY BUILDING

MACLEOD, ALBERTA

SEVENTH CROP REPORT

Issued by the Department of Agriculture,
Government of Alberta,
Edmonton, July 18, 1925.

The preparation of this, the seventh
crop report issued by the Department

of Agriculture, is approached with reluctance,
owing to the complete change
which has taken place in the crop
situation throughout the province,
even since the report of two weeks
ago.

The hot, dry weather mentioned in
the report two weeks ago has con-

tinued with even greater intensity,
and relieved very little by rain. The
consequence has been that the growing
grain in practically every district
of the province has been affected
more or less, and the first estimates
of crop yields have been tremendously
reduced. The very heavy

plant growth of the early part of the
season has in itself been responsible
for the more rapid draining of the
soil of moisture from the soil during
the hot spell than would have been
the case with a lighter crop.

The dry, hot weather is continuing
with high records of temperature,
and with little indication of relief
with rain, with the result that every
day is having its effect upon the grain.

Sections of the southern and the
east central parts of the province
are once more facing the certainty
of a crop failure. The latest reports
received from the experts of the department
who have been making
careful analysis of the situation, are
to the effect that in certain districts
where on summer-fallowed land
yields of between 30 and 40 bushels
were anticipated a fortnight ago, not
more than 10 or 12 bushels can be
obtained, if rain comes soon to relieve
them. On stubble land and spring
plowing in these areas the yields
will range from 3 to 10 bushels
per acre.

These conditions apply to almost
the entire light soil areas of the
province, but more particularly to
the southern portions of the province
from Cardston east to Medicine
Hat, and north to the main line of
the C. P. R. Reports from these districts
on Thursday, July 16th, were
that the intense heat with terrific
winds still continued. Lethbridge,
Macleod and Glenwoodville districts
will yield fairly well if rains come
soon. Cardston district has suffered

badly. Magrath and Raymond districts
are fairly good.

The big crop section from Taber
east to Medicine Hat, south to the
border and north to the Red Deer
River has suffered badly and will
experience very light yields. This is
the case also with some of the light
soil areas to the west of Edmonton.

The rest of the province has maintained
growth fairly well, but is suffering
now under intense heat.

On Wednesday, July 15, the estimate
made by the Minister of Agriculture
for the province anticipated a total
yield of around 80,000,000 bushels
of wheat, based on an estimated yield
of 14 bushels per acre on the area
of 5,570,000. This was based on knowledge
of the actual facts, and was confirmed by
the estimate issued by the officials of
the Alberta wheat pool, based on the
situation a few days earlier, which
placed the anticipated yield at 84,
000,000 bushels. In the lapse of the
few days since these estimates were
issued the situation has been rendered
even more critical, and the estimates
will as a consequence undergo
another revision.

It is with no desire to be pessimistic
that the department issues the
above statement, but merely with
the intention that the facts be
made known. The summary is based
on careful reports made by experts
of the department who have been over
the ground during the past few days.

With respect to pasturage, the remarkable
fact is noted that the

grass and hay is already cured,
which is an indication of the effect
the intense heat has had. Temperatures
ranging upwards of 90 and 95
degrees have been recorded at
various points in the province.

DEMPSEY PLANS FOR TITLE FIGHT

New York, July 21.—Jack Dempsey
must appear personally before
the New York State Athletic commission
to conclude arrangements for his
program leading up to a title fight
with Harry Wills in 1926. This was
the decision of the commission
today in refusing to accept Tex
Rickard as the champion's proxy,
after the heavyweight boxing
champion had left for the west
yesterday, in spite of previous
promises to come here today to put
the finishing touches to his plans.

The upshot of today's meeting
was to delay the entire Dempsey
program for at least two weeks.
Rickard promised to have Dempsey
return to New York by that time.

Dropping Kearns

Omaha, Neb., July 21.—"I am going
to manage my own affairs after
1926," Jack Dempsey, heavyweight
boxing champion, told Omaha newspapermen
during a brief stay in
Omaha this morning, en route to the
Pacific coast. "I am going to settle
all my real estate affairs with Jack
Kearns and when his contract expires
in September, 1926, I am going
to strike out alone."

CAPITAL GOSSIP AND PROV. NEWS

Legislature Meets August 3rd
The adjourned session of the legislature
of Alberta will be called August 3rd,
to deal with the question of the
Peace River Railway and other
matters. A session of only a few
days is expected.

Big Gas Well
The new gas well brought in by
the Northwestern Utilities in the
Viking field east of Edmonton is the
biggest producer in the field, it has
been established. The production is
close upon 10,000,000 cubic feet per
day, much more than any other well
in the field.

Big Elevator for Lethbridge
The Ellison Milling Co. plans a
million bushel elevator for the city
of Lethbridge, where it has a mill-
ing plant.

Peace River Railway Outlet
That both transcontinental rail-
ways have found the cost of con-
structing a through line for a
coast outlet from the Peace River
country prohibitive, was the state-
ment made by Premier Greenfield at
the conference of western men in
Edmonton the past week. Mr. Green-
field gave this information as the re-
sult of his conference with railway
officials in the east.

Savings Certificates Popular
More provincial savings certificates
were sold in the first six
months of this year than in any full
year previously, even including the
big record year of 1920. This is in-
dicated in the report of the treasury
department up to the end of
June, for which half-year period the
total sales amounted to \$1,401,600.
Withdrawals during the spring
months were heavy, as is usually the
case during crop seedling time, but
there is now close to \$7,000,000 out-
standing in savings certificates.
Since the Alberta savings scheme
was inaugurated in 1917 there has
been a total sale of \$26,561,296, a
large part of which has been taken
up by investors within the province.

Alberta Bonds in High Regard
W. V. Newson, Deputy Provincial
Treasurer, is back from a trip to
New York, where he went to make
delivery of the bonds in the \$2,250,-
000 issue bought by the National
City Corporation last month. He re-
ports that financial men in New
York told him that Alberta bonds
are held in high regard in that mar-
ket and also that the June sale was
put through just in time and at the
peak of the season's business. Al-
most immediately afterwards there
was a drop, and they thought Al-
berta had been singularly fortunate
in hitting on the psychological mo-
ment.

Big Oil Company Investigates
The Royal Dutch Shell Company,
one of the giant oil corporations of
the world, has decided to investi-
gate the oil development possibilities
of Alberta with a view to entering
the field if reports are justified.

New Cleaning Machine
Farmers of the province will be
able to obtain this fall, at actual cost
of manufacturing and handling, the
machine which has been perfected
under the supervision of the provincial
department of agriculture,
known as the Stephen Grain Separ-
ator Cleaning Attachment, which
cleans weed seeds from grain as the
operation of separating is proceed-
ing. This announcement is made by
Hon. George Hoadley, Minister of
Agriculture.

Preparations are being made for
the manufacture of a considerable
number of these machines, and these
will be made available before the
coming threshing season at a price
to cover actual cost of manufacture
and handling. The machine has not
previously been offered to the public.
When the machine is placed on the
market it will be properly labeled
and advertised in order that the
farmers may know that this is the
machine fostered by the department.

CARDINAL BEGIN SUCCESSIONS AFTER WEEK'S ILLNESS

Quebec, July 20.—His Eminence
Cardinal Louis Nazaire Begin, arch-
bishop of Quebec, and primate of
the Roman Catholic Church in Can-
ada, died early Sunday, in the Arch-
bishop's Palace, of uremia, with
which he was stricken last Sunday
night. The body lies in state in the
chapel of his residence, from where
it will be taken to the basilica and
remain until Saturday morning.

and General Stores.

MIGRATORY BIRDS CONVENTION ACT

A summary of the Migratory
Birds Convention Act is given below.
This is the law which is based upon
the treaty with the United States.
Any enquiries concerning this law
may be addressed to the Commis-
sioner of the Canadian National
Parks, Department of the Interior,
Ottawa.

Open Seasons—Both Dates Inclusive
Ducks, Geese, or Rails, Wilson or
Jack-snipe, Black-bellied and Golden
Plovers, and the Greater and Lesser
Yellowlegs, Alberta, September 15—
December 14; Saskatchewan, Sept.
15—Dec. 31.

Closed Seasons
There is a closed season in the
provinces of Alberta and Saskatche-
wan on band-tailed pigeons, swans,
wood duck, eider duck, cranes, cur-
lew, willet, godwits, upland plover,
avocets, dowitchers, knots, oyster-
catchers, phalaropes, stilts, surfi-
birds, turnstones, and all the shore-
birds not provided with an open
season in above schedule.

There is a closed season through-
out the year on the following non-
game birds: Auklets, bitterns, ful-
mars, gannets, grebes, guillemots,
gulls, herons, jaegers, loons, murrets,
petrels, puffins, shearwaters, terns,
tattlers, and there is a closed season
throughout the year on the following
insectivorous birds: Bobolinks, cat-
birds, chickadees, cuckoos, flickers,
flycatchers, grosbeaks, humming-
birds, kinglets, martins, meadow-
larks, nighthawks or bull bats, nu-
thatches, orioles, robins, shrikes,
swallows, swifts, tanagers, titmice,
thrushes, vireos, warblers, wax-
wings, whippoorwills, woodpeckers,
and wrens, and all other perching
birds which feed entirely or chiefly
on insects.

No person shall kill, hunt, cap-
ture, injure, take, or molest migratory
game birds during the close season.
Sale of these birds is forbidden.

The killing, capturing, taking,
injuring or molesting of migratory
insectivorous and migratory non-
game birds is prohibited. The pos-
session of legally taken migratory
game birds is allowed in Alberta un-
til March 31st, following the open
season, and in Saskatchewan until
the last day of February following
the open season.

Daily Bag Limit—Alberta
Ducks—30 in one day, and not
more than 200 of all kinds in a season;
Geese—15; Rails—25; Black-
bellied and Golden Plover, Greater
and Lesser Yellowlegs—15 of all
kinds; Wilson Snipe—25.

Daily Bag Limits—Saskatchewan
Ducks and Geese—30 of all kinds
in one day, and not more than 200
of all kinds in a season; Rails—25;
Black-bellied and Golden Plover,
Greater and Lesser Yellowlegs—15
of all kinds; Wilson Snipe—25.

Guns and Appliances
The use of automatic (auto load-
ing), swivel or machine guns, or bat-
tery, or any gun larger than No.
10 gauge is prohibited, and the use
of any aeroplane, power boat, sail
boat, or night light, and shooting
from any horse-drawn or motor ve-
hicle is forbidden.

The shooting of migratory game
birds earlier than one hour before
sunrise or later than one hour after
sunset is prohibited.

Penalty
Every person who violates any
provision of this Act or any regula-
tion shall, for each offence, be liable
upon summary conviction to a fine of
not more than three hundred dollars
and not less than ten dollars, or to
imprisonment to a term not exceed-
ing six months or to both fine and
imprisonment.

When his ashes will be entered in the
crypt alongside the remains of other
archbishops of Quebec.

Man could have descended from
a lower form of animals, but is there
a lower one?

LOCAL AND PERSONAL NEWS

Stan. Boyer was a business visitor to Macleod this week.

The Rev. W. J. Merrick is spending a vacation at Banff.

Jack Thompson, an old timer of High River, was in Macleod on Wednesday last.

Mrs. R. L. Hackett spent several days at Waterton Lake last week, the guest of Mrs. Coffey.

Canon S. Middleton, of St. Paul's Mission, was in Macleod on Sunday evening last enroute to Calgary.

Mr. and Mrs. Forster Brown and daughter are spending their summer holidays at Victoria and Vancouver.

W. A. Buchanan, editor of the Lethbridge Herald was in Macleod on Wednesday attending the Liberal Convention.

Mrs. (Judge) Macdonald left this week for her summer vacation, which will be spent in the northern part of the Province.

Mrs. Jas. Milne, Miss A. Windward and Robt. Fisher, of Taber, were the guests of Mr. and Mrs. J. Davis for several days last week. While here they motored through

the Crows' Nest Pass via Blairmore, Mr. and Mrs. Davis accompanying them.

Miss Olive Young spent several days last week as the guest of Mr. and Mrs. R. Reid, at Wardner, B.C.

Miss Hope Dillingham, accompanied by Miss Alice, are spending their vacation visiting friends in Calgary.

The Hon. Charles Mitchell, of Edmonton, was in Macleod for a few days this week.

Several good catches of grayling have been brought in by local anglers from the Old Man River during the last week.

Mr. and Mrs. J. E. Rogers (formerly of Macleod now of Drumheller) accompanied by Misses Ethel and Bertha, were the guests of Mr. and Mrs. R. L. Hackett this week.

"Progressive convention in Macleod, Aug. 3, for the selecting of a candidate for the coming federal election, and other business," is how the official call of the Farmers' forces reads. The executive will meet at 10 a.m., and the convention H. Davis for several days last week, will open at 2 p.m. The convention will be held in the town hall here

and delegates will be present from all parts of the constituency.

"Bill" Kirkaldie, well known old timer, and formerly manager of the Cochrane Ranch, was a visitor to Macleod this week a guest of Mr. and Mrs. George Skelding.

Mr. and Mrs. Arthur Renwick, of Calgary, were visitors to Macleod for a few days this week on their honeymoon trip by auto over the Banff-Windermere highway.

A. D. Kean, of moving picture fame, is again in Macleod and will complete his picture, "Policing the Plains." Among these scenes will be that of the life of Charcoal after his shooting the police officer, the trial and final ending of his stirring life. This will depict the story of the "True love of an Indian wife."

The C.G.I.T. Camp is in full swing, directed by Miss Mary Folk, and with the able help of their leaders, Miss Lena McLean, Miss Janet Griffin and Miss C. Allan, with Mrs. Hunt, Camp Mother from Barons. The various sessions have been much enjoyed by the girls and by obeying the rules of the Camp everyone is happy. Friday night many visitors from town were guests of the girls. The sports program went over big and the evening program with the educational talk, Rev. Mr. Thomas, of the Presbyterian church addressed the campers on Sunday afternoon. The girls are receiving splendid training, following the four-fold life closely, and listening to many splendid talks by their leaders. The camp expresses thanks to all who have been helpful toward their camp's success and to those who sent special treats and gave encouragement to them, as a unit of this great Canadian organization for training girls for their life work.

REVOLUTION IN PORTUGAL

Lisbon, July 20.—Three were killed and 15 wounded in yesterday's revolution here. Lisbon is under martial law and the situation is calm.

The revolt ended a few hours after it started early in the morning, due to the prompt action of the government. Captain Baptista, who engineered the plot, and four of his aides are under arrest, having given themselves up when it was seen that the authorities had the upper hand.

Malcontents in Lisbon had won over the officers of the cruiser Vasco De Gama, from which their leader issued demands to the government. These were promptly rejected by President Gomes, who demanded surrender of the mutineers under threat of bombardment. The officers of the cruiser found themselves isolated as the other warships had been ordered to Lagos; after a few hours consideration they capitulated.

Alas! The resort dad favors offers few desirable prospects for daughter.

LIVE STOCK CONDITIONS IN WESTERN CANADA

Report No. 5, of the Origin and Quality of Commercial Live Stock Marketed in Canada, issued by the Dominion Live Stock Branch, after referring to the fact that the output of hogs by Alberta in 1924 was easily the largest on record says, relating to cattle, that it is obvious that not only is a distinct improvement taking place as regards winter feeding practices, but also in the type of cattle produced. Referring to Saskatchewan, it is recorded that, that province made a very favourable showing as regards the quality of commercial cattle sold, that there was an increase of 35 per cent in the number of choice heavyweight steers sold at stock-yards, over 50 per cent increase in the number of good cows offered, and a very appreciable improvement in the volume of heifers of good grading marketed. As regards hogs, while noting an improvement in 1924, the Report remarks: "Nevertheless it is true that there is room for still greater effort in the matter of placing the hog output of Saskatchewan on a basis where a reasonable percentage would be available for manufacturing into better grades of Wiltshire bacon." As regards Manitoba, a most commendable improvement in cattle is noted, especially in the popular weights of steers and in the better grades of cows. It is inferred that there may be a falling off this year, compared with 1924 in the volume of hog marketing, but it is added that the prospects of the hog industry are good at the present time, that there is no evidence of over-production in any of the chief bacon exporting countries, and that Canada, with her abundant crops of

first cost hog feeds, should find herself in a very strong position.

A further remark in the Report that should attract attention is that prices for all classes of commercial live stock are now on a much higher level than at any time during the past few years and that prospects, both in domestic and export market, are very promising.

REACH & COMPANY, Ltd.

GENERAL MERCHANTS, GROCERIES, FRUITS AND VEGETABLES

Remember you men, although we scold the ladies for their apathy and cold-blooded indifference to the prices we offer from time to time, you are not altogether free from blame. Never a week passes but you can see, if you can read, the many bargains offered to you regardless of cost to clean out our slow lines on counters, in windows or in silent salesman. If you don't want some of these tempting baits to-day, to-morrow or day after you certainly will, 50 to 100 per cent is a handsome return for money invested for goods that if you buy later will read you a lesson in investing.

THIS WEEK—Men's Riding Gaiters \$5.50. Men's Suits of Clothes at cost. Men's Merino Shirts (all the drawers sold) for 75c; sizes 34, 36, 44 and 46. Three pair of Men's Long Riding Boots, price \$10.00—former price \$20.00.
